

## Reflection Questions:

- When and what was your last difficult decision?
- Is there anything that causes paralysis for you in the face of important decisions?
- Are you waiting for the “perfect time” to make a big decision instead of “casting out” with no guarantee of success?
- Do you make decisions based upon past and present experiences and circumstances, or by simply relying on the voice and character of the One who calls?
- Ask God: *Is there anything keeping me from following You into the unknown?*
